ADF&G Drawing Permit Applications
PO Box 228080
Anchorage, AK 99522-8080

Note: If you apply online, please
DO NOT MAIL an application.

Tom Fondell and Jerry Hupp of Anchorage, Little Susitna River, September 2005

NEW! Proxy hunting changes for drawing hunts:

- You may only proxy hunt for moose in hunts where the legal animal is any bull or antlerless moose.
- For moose and caribou, antler destruction is required for both the hunter's and the beneficiary's animal.
- For all other proxy regulations, see the current Alaska Hunting Regulations.

Instructions for applying for drawing permit hunts:

- If you do not apply online, your applications must be mailed to the address shown on the application form. It is your responsibility to make certain your envelope is postmarked by May 31. Some post offices routinely pouch mail without postmarking it and send it on to a larger distribution center where it is postmarked 24-48 hours later. We suggest you hand-carry your envelope into the post office, ask that it be postmarked and then look at the postmark to make certain it says May 31 or earlier. A postmark means a U.S. Postal Service postmark -- postage meter dates do not count.
- Applications postmarked by May 31 will be accepted until June 10.
- Applications for nonresidents applying for spring brown/grizzly bear hunts (except for Guided Kodiak Brown Bear Hunts) hunting with a registered guide will be accepted during both the May and November application periods.
- Drawing results will be available online in mid-July at www.wildlife.alaska.gov.
- Supplements and applications are available online at www.wildlife.alaska.gov.
- Detailed hunt area maps are also available online at www.wildlife.alaska.gov/gis/index.cfm.

Apply early! By applying early, there is more time to verify your application and provide you with an opportunity to correct the error. If a daytime (8-5 ADT) phone number is provided, an attempt will be made to resolve application errors when practical and if time permits. If you apply online, the online program will help you reduce the number of errors in your application.

Read the drawing permit hunt application instructions carefully. The instructions are located on the back of the application form. Fill out your application accurately and submit the correct amount of money with each application. Prior to applying for drawing permit hunts you must obtain or have applied for an Alaska hunting license.

There is NO REFUND of application fees. Only when too much money is submitted, or the hunt is canceled, is a fee refunded. Please use credit card (MC or VISA), check or money order (U. S. funds) made payable to State of Alaska. Debit cards and check cards are not accepted.

Hunters who receive a drawing permit DO NOT need general season harvest tickets/reports to participate in a drawing hunt. If you have a general season harvest ticket/report for a particular species in addition to your drawing permit, PLEASE DO NOT report the results of your drawing hunt on that harvest report. It creates duplicate information.

Properly completed permit reports must be returned by the date specified on the permit, even if you did not hunt or were unsuccessful. If you did not return last year's drawing, Tier II, or registration report, even if you claim the postal service lost your report, you will be ineligible for all drawing, Tier II, and registration permits for the next regulatory year. A hunter may apply on a Drawing Permit Single Application form OR a maximum of two (2) hunters desiring to hunt together may apply as a party on a Drawing Permit Party Application form. For a party application, both hunters apply on the same form and both will receive permits if drawn.

Specific permit hunt information

- The number of permits actually issued may be adjusted up or down depending on the outcome of the most recent population surveys. Many of these surveys are not completed until after the publication of this supplement.
- Each hunt is assigned a unique hunt number. Use only hunt numbers listed in this supplement. The complete number must appear on the application.
- You may apply for the same hunt number only once on all individual and party applications combined.
- You may submit up to three (3) different hunt numbers per species on all individual and party applications combined.
- No person may receive more than one drawing permit per species per regulatory year. Permits are not transferable.
- If you received a drawing permit last year, you are ineligible to receive a drawing permit for the same hunt this year.
- If you applied for any drawing permits for moose last winter, those hunts count toward your three (3) hunt choices this spring.

There are three types of permit hunts; drawing, registration, and Tier II. Only drawing permit hunts require fees and are awarded solely by lottery. In addition there are general hunting seasons which do not require a permit, but may require a harvest ticket/report. Refer to the Alaska State Hunting Regulations Book for information about such hunts.

Guide requirements for nonresident hunters

Nonresidents who are not citizens of the United States (non-resident aliens) are required to be personally accompanied in the field by a licensed guide when hunting any species of big game. Nonresidents who are citizens of the U. S. are required to be personally accompanied in the field by a licensed guide or be accompanied in the field by an Alaska resident over 19 years of age within the second-degree of kindred* when hunting brown/grizzly bears, Dall sheep, or mountain goat. Those intending or required to hunt with a guide should make certain there is an available guide licensed for the specific area they wish to hunt. Having successfully obtained a permit doesn't guarantee the availability of a guide. For information regarding guiding, contact: Dept. of Commerce, Community and Economic Development, Division of Corporations, Business and Professional Licensing, PO Box 110806, Juneau, Alaska 99811-0806, Phone (907) 465-2543. * Second-degree kindred: A father, mother, brother, sister, son, daughter, spouse, grandparent, grandchild, brother-in-law, stepfather, stepmother, stepsister, stepbrother, stepson or stepdaughter. Hunters should be aware that except for a registered or master guide it is illegal for anyone to provide for compensation any supplies, equipment, or services (other than transportation) to a big game hunter in the field. In other words, transporters and individuals cannot legally provide for compensation, vehicles, fuel, bear bait and/or stations, camping, hunting, or game processing equipment or any hunting services such as cleaning of game, glassing, packing, etc. from a permanent or nonpermanent structure in the field or on a boat on saltwater. Licensed transporters may provide transportation services and accommodations (room and board) only at a personally owned permanent structure in the field or on a boat on saltwater. It is illegal for a transporter to accompany or remain in the field at a nonpermanent structure with a big game hunter who is a client of the person except as necessary to perform transportation services. Unlicensed individuals cannot legally provide transportation service or accommodations for compensation.

Hunter education requirements for young hunters

Hunter Education is **required** for hunters born AFTER January 1, 1986, and intending to hunt in Units 7, 13-15, and 20.

The following apply:

- If you are 16 years old or older, you must have successfully completed a certified Basic Hunter Education course.
- If you are under 16 years old, you must have:
 - a) successfully completed a certified Basic Hunter Education course, OR
 - b) hunt under the direct immediate supervision of a licensed hunter who
 - has successfully completed a certified Basic Hunter Education course OR
 - was born on or before January 1, 1986.
- If you are 10-17 and have successfully completed a certified Basic Hunter Education course, you may hunt on behalf of an adult permit holder 16 or older, under their direct and immediate supervision. The adult hunter is responsible for ensuring that all legal requirements are met.

Minimum age:

A hunter must be 10 or older by the starting date of the hunt to obtain a permit. A hunter under 10 is allowed to hunt only on behalf of an adult permit holder, under the direct and immediate supervision of that adult. The adult permit holder must be a licensed hunter, 16 or older, and is responsible for ensuring all legal requirements are met.

See back page for details on how the drawing hunt works, and for results of the 2005 Spring Permit Hunt Drawing.

Kodiak Brown Bear

Residents and 2nd Degree Kindred Nonresidents (DB200 Series): Application Deadline for all hunts - May 31
Guided Nonresidents (DB100 Series): Application Deadline for fall hunts - May 31

All Successful Applicants

- Drawing winners will be notified by mail, but permits can only be obtained by appearing in person at the ADF&G office in Kodiak prior to going into the field. Permits for the fall hunts will be available on October 4, 2006.
- All check-in and check-out must be done at the ADF&G office in Kodiak during normal working hours.
- A valid Alaska hunting license, Big Game Tag Record, and brown bear locking tag must be presented before a permit can be issued.
- Hunters are restricted to a 15-day hunt period that they must select when they pick up their permit.
- The bag limit is one bear every four regulatory years, and a legal bear is any bear except cubs or females accompanied by cubs.
- Applicants successfully drawn for a fall Kodiak bear hunt are ineligible to receive another Kodiak bear permit the following spring.

Reporting requirements

Successful Hunters -- report in person to ADF&G in Kodiak within 2 days after leaving the hunt area, and submit their completed hunt report. The bear skull (unfrozen and removed from the skin) and hide (with claws and evidence of sex attached) must be presented for sealing within 30 days of harvest and prior to leaving Game Management Unit 8. Guided non-residents may leave their bear skull and hide with their guide if they complete a temporary sealing form.

Unsuccessful Hunters -- report in person or by telephone (907-486-1880) to an ADF&G representative in Kodiak within 2 days after leaving the hunt area. Completed permit reports must be submitted in person or by mail within 10 days after leaving the hunt area.

Fall Season: Oct. 25 - Nov. 30

Spring Season: April 1 - May 15

Guide Requirements

- Nonresident brown bear hunters who are not citizens of the United States (nonresident aliens) must be accompanied in the field by a licensed guide legally registered to hunt in the area. See "Nonresidents Hunting with a Registered Guide" section below.
- Nonresident brown bear hunters who are U.S. citizens must be accompanied in the field by a licensed guide legally registered to hunt in the area, or an Alaska resident relative "within the second-degree of kindred."* See "Alaska Residents or Nonresidents Hunting with Resident Relatives" section below.

Alaska Residents or Nonresidents Hunting with Resident Relatives

Special provisions

- Nonresidents intending to hunt with a resident relative must apply for the DB200 series of permit hunts listed in chart at right.
- Two nonresidents intending to hunt with a resident relative may not apply on a party hunt application, because only one permit is issued per hunt to a nonresident hunting with a resident relative.
- A maximum of four nonresidents guided by resident relatives will be awarded permits for each season, with a maximum total of eight permits per regulatory year.

*** Second-degree kindred: A father, mother, brother, sister, son, daughter, spouse, grandparent, grandchild, brother- or sister-in-law, stepfather, stepmother, step-sister, stepbrother, stepson or stepdaughter.**

Chad Demro, hunting with Todd Langford, took this brown bear in 2005.

**Areas partially included in exclusive guide areas
* Areas mostly or entirely included in exclusive guide areas

Special provisions

Guide-Client Agreements are now required at the time of application. In addition, guides may only submit the same number of hunt applications as permits available for that hunt. A party permit counts as two hunt applications.

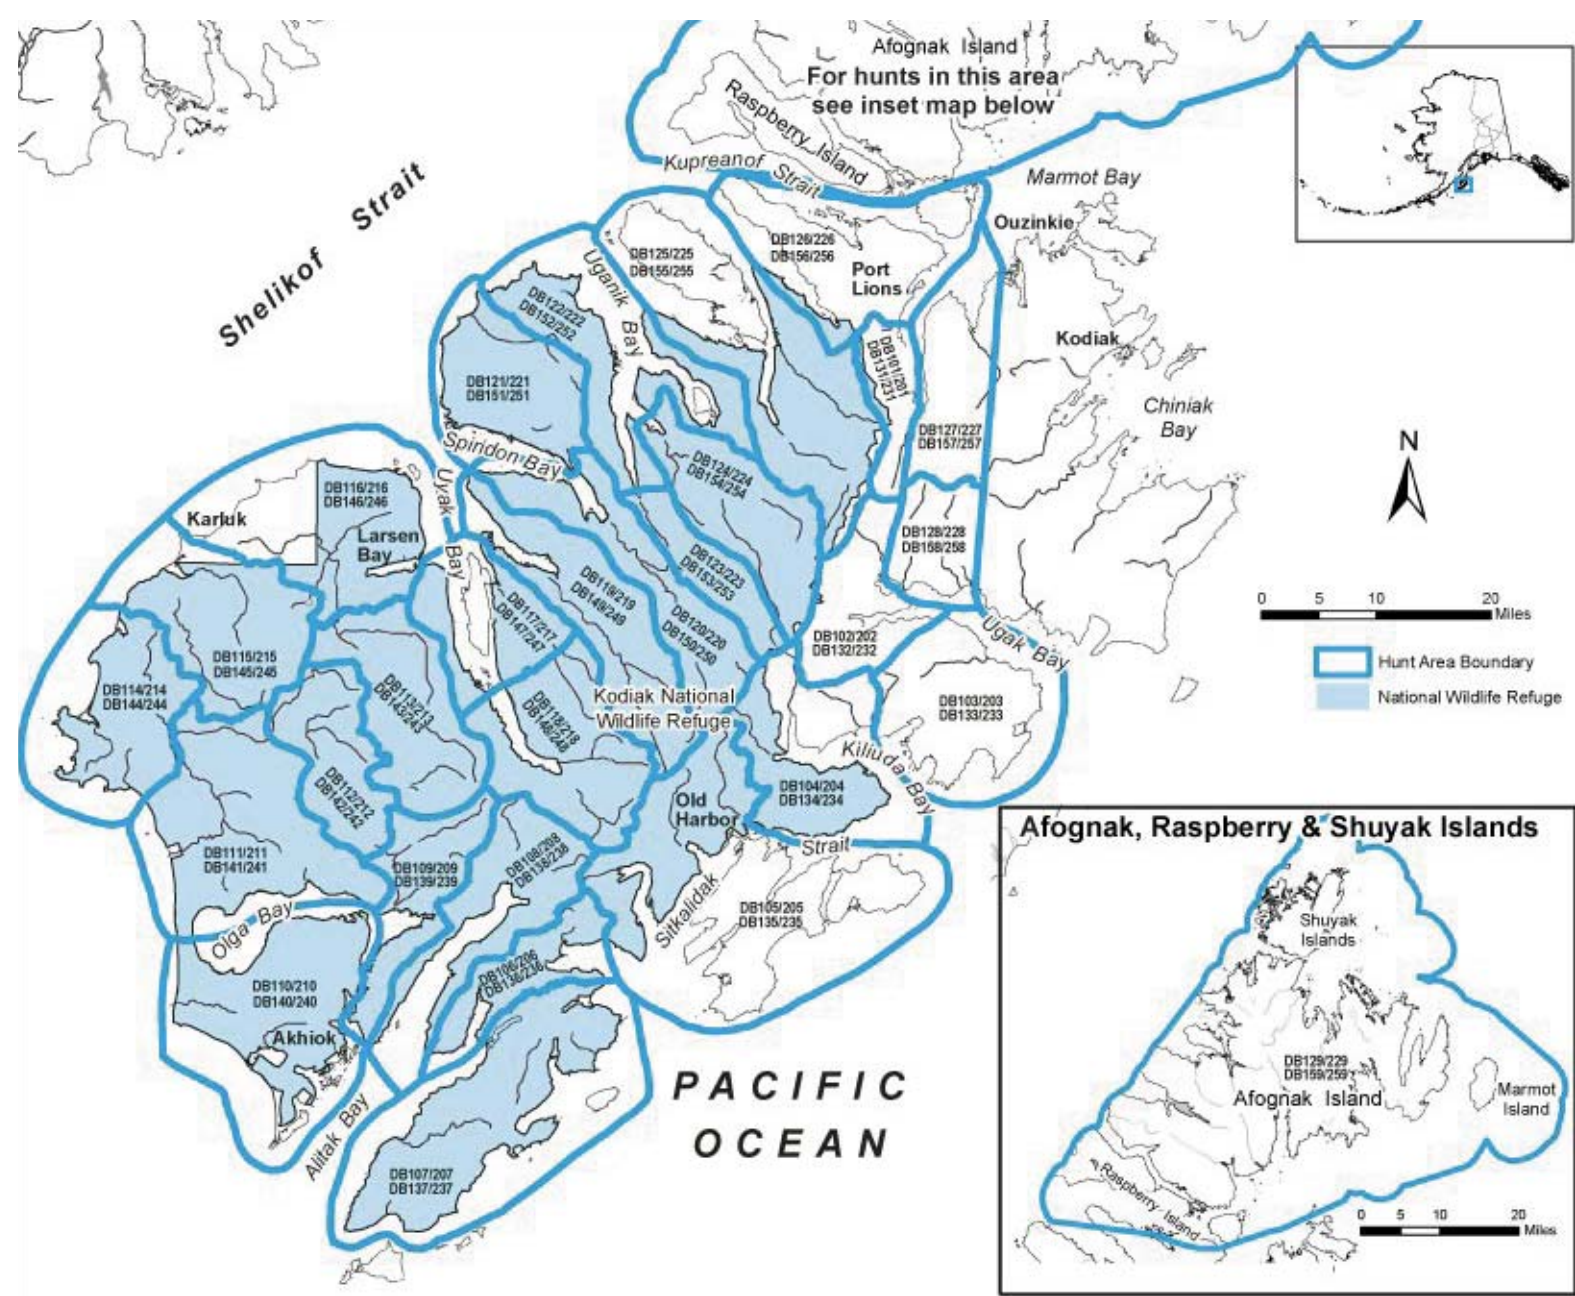

- Guided nonresidents may apply for one fall Kodiak brown bear drawing permit (DB100 series).
- All nonresident Kodiak bear hunters who are not hunting with a resident relative must be accompanied in the field by a licensed big game guide legally registered to hunt in the area.
- Kodiak National Wildlife Refuge and some private landowners only allow certain guides to take nonresident bear hunters on their lands. Prior to applying for a permit for these areas (marked in the table at left with an asterisk), hunters are strongly encouraged to check on guide availability. A list of the guides registered for particular hunt areas can be obtained from the Dept. of Commerce, Community and Economic Development, Division of Corporations, Business and Professional Licensing, PO Box 110806, Juneau, AK 99811 for a fee of \$5.
- To reserve their permit, successful applicants must provide the ADF&G office in Kodiak with a copy of a Guide-Client Agreement (available from the guide or on the ADF&G web site) that is completed and signed by the applicant and a guide who is legally registered to hunt within a particular Hunt Area. The deadline to provide the Guide-Client Agreement is the same as the drawing hunt application deadline. Guide-Client Agreements can be mailed (211 Mission Road, Kodiak, AK 99615), faxed (907-486-1869) or delivered in person.
- If a successful applicant cancels a permit (in writing to Kodiak ADF&G), or if a completed and signed copy of the Guide-Client Agreement is not received by the deadline, we will choose an alternate for that permit. Alternate lists for each hunt area are produced during the drawing process.
- If successful applicants cancel their permits after the above dates, and where there are no alternates for the hunt, unallocated permits will be issued on a first-come, first-served basis starting on the fourth working day after the cancellation is received in the Kodiak ADF&G office. To reserve one of these permits, a hunter or an agent must bring a completed and signed Guide-Client Agreement to ADF&G in Kodiak.
- If there are no applicants for a drawing permit, or if the alternate list within a particular area is exhausted, we will issue all remaining permits on a first-come, first-served basis starting on August 11, 2006 for the fall hunts. To reserve one of these permits a hunter, guide, or agent must bring a completed and signed Guide-Client Agreement to the ADF&G office in Kodiak in person.
- Guided nonresident hunters in Hunt Areas DB108 – DB116 are encouraged to take male bears. If a guided hunter takes a female bear from one of those hunts, and that female has a skull that is less than 15" long or 9" wide, one permit will be deducted from the nonresident allocation for that hunt in the next regulatory year.

Kodiak Brown Bear Permit Areas

Bison

Detailed Hunt Maps available on our web site at
www.wildlife.alaska.gov/gis/index.cfm

All check-in, check-out to be done during regular state office hours: weekdays (except holidays) 8 a.m.-5 p.m.

Application fee for a bison hunt is \$10 per individual, \$20 per party

Bag Limit is One Bison every FIVE Regulatory Years. A person who harvested a bison during or since regulatory year 2001-2002 is ineligible to apply.

Game Management Unit, Area	Hunt No.	Number of Permits	Season Dates	Legal Bison	Reporting Requirements		Additional Requirements and Information
					If Successful	If Unsuccessful	
11, Chitina	DI450	2	Sept. 6- Nov. 30	Bull	In person within one day of leaving the hunt area in Glennallen	By phone to Glennallen within 5 days of close of season	Hunt Area: drainages of the Chitina River east of the Chakina River and south and east of the Nizina River. This is a remote area, primarily accessible by light aircraft on small undeveloped gravel strips.
11 and portion of 13D, Copper River	DI454	up to 24	Sept. 1- Mar. 31	Either Sex	In person within one day of leaving the hunt area in Glennallen	By phone to Glennallen within 5 days of close of season	Hunt Area: east of the Copper River, south of the Nadina River, Nadina Glacier, and Sanford Glacier, and west of the line from Mount Sanford to Mount Wrangell to Long Glacier west of the Kotsina River and that portion of Unit 13D east of the Edgerton Highway. If a successful applicant fails to indicate intent to hunt (in writing to ADF&G, Box 47, Glennallen, AK 99588) by Sept. 1, we will choose an alternate for that permit. An alternate list for the hunt is produced during the drawing process. Hunting opportunities on public land are extremely limited. Most bison are found on private lands where access is not allowed. The only access during the fall is on state lands below ordinary high water mark on the Copper River, and a boat is necessary. Snowmachine access during the winter is very limited because of land status and open water throughout the winter on the Copper River. A map of the hunt area will be available at ADF&G.
19, Farewell	DI351	up to 20	Sept. 1- Sept. 30	Either Sex	In person or by phone to McGrath within 2 days of leaving hunt area	By mail within 15 days of close of season	Additional information will be mailed from the McGrath office to each permit winner prior to the hunt.
	DI352	up to 20	Mar. 1- Mar. 31				
20D, Delta	DI403	65	Assigned hunting period between Oct. 1-Mar. 31	Bull	In person to Delta Junction within 1 day of kill	By mail within 15 days of close of season	Hunters will be assigned specific hunting periods determined by order drawn. Hunters must obtain permission from landowners to hunt on private land. Rifles must fire a minimum 200 grain bullet having 2000 ft.-lbs. or more energy retained at 100 yards. Successful applicants must attend a scheduled orientation in Delta Junction prior to hunting. Permits will be issued in person at the ADF&G office in Delta Junction. Identifying the sex of bison can be difficult. The number of permits may be adjusted based on the most recent population surveys.

How does the random drawing work?

All permit applications are entered into a computer database. Once entered, each application is carefully checked for 18 potential problems such as two or more applications for the same hunt, correct hunt numbers, date of birth, hunting license information, etc. The computer then randomly assigns a number to each hunt on each valid application. The random number is referred to as your draw number. Party hunt applications receive one draw number for each hunt. That is, both applicants on the party hunt application receive the same draw number per hunt, so if that number is drawn, both party members receive a permit. Permits are awarded to applicants with the lowest draw numbers up to the number of permits allocated for that particular hunt. If five permits are to be awarded for a particular hunt, the five permits will be given to the first five lowest draw numbers until the total permit allocation is awarded. For example, if four of the five permits have been awarded, and a party application has the next random number, the party application will be skipped. This is because there is only one permit left available, and two permits would have to be awarded (one for each party member). The permit will be awarded to the next individual applicant whose number has been selected. After all permits have been tentatively assigned for a species, the listing is checked to identify any individuals who have been selected for two permits for the same species. If this occurs, the individual is awarded a permit based upon the first, second or third choice on the permit application. The other permit is then made available to the first individual applicant with the next lowest random number. The process is repeated for all hunts for that species until all possible permits are issued within the rules for awarding permits. Alternate lists are required to be used in a few specific hunts to maximize hunting opportunity. The alternate list is generated from all remaining applicants using the draw order already assigned in the original random draw. If the original applicant drawn does not notify the department of intent to hunt by the date required, the next applicant(s) on the alternate list will be offered a permit, until all permits have been awarded.

To improve your chance of drawing a permit:

1. Please read and follow the instructions carefully. Last year, about 2% of the total applications were rejected. The most common errors were applying for more than three hunts per species, applying for the same hunt more than once, invalid or missing hunting license information, and failing to report the prior year. In addition, hunt applications were invalidated due to insufficient payment of application fees.; 2. Apply for maximum of three hunts per species per regulatory year; 3. Apply for less popular hunts; see table above.

Two questions commonly asked by hunters wanting to improve their chances of winning a permit are: “What hunts have the best odds to win a permit?” and, “How much does my chance for winning a permit improve with each additional choice?”

The table above lists results of the 2005 Spring Drawings, and can be used to answer the first question. The column titled “Percent Drawn” gives the percentage of applicants who won permits for each hunt; the higher the percentage, the better the odds of winning. For example, 81% of the hunters who applied for Unit 23 brown bear hunt DB781 won permits, while only 3% of those who applied for Unit 8 Kodiak Brown Bear hunt DB219 won a permit.

In answer to the second question, you may apply for a total of three hunt choices per species and the chance of winning a permit for a particular species usually increases with each additional hunt applied for. Last year, hunters who applied for only one moose hunt number won 20% of the total permits available, hunters who applied for two moose hunt numbers won 19% of the permits, and hunters who applied for three moose hunts won 60% of the permits.

Restricted Weapons Hunts

Some drawing hunt areas have weapons restrictions. The certification requirements for these areas vary depending on which weapon you are hunting with:

Certified Bowhunters Only: You must have your ADF&G-approved bow hunting education course (IBEP or equivalent) certification prior to applying for the drawing hunt. You **MAY NOT** hunt with long bow, recurve bow, or compound bow in any hunt or area restricting the taking of big game to archery only unless you have first successfully completed an ADF&G-approved bow hunting education course (IBEP or equivalent). IBEP or equivalent certification courses taken outside Alaska are accepted.

Certified Muzzleloader Hunters Only: To hunt with a drawing permit restricted to Certified Muzzleloader Hunters Only, you must have your Muzzleloading Hunting certification prior to hunting. However, beginning with the May 2008 Drawing Application period, applicants for Certified Muzzleloader Only hunts must be certified **PRIOR TO APPLYING** for those hunts.

Certified Shotgun Hunters Only: To hunt big game with a **shotgun** in a weapons-restricted hunt, you must have successfully completed a ADF&G-approved Basic Hunter Education course prior to hunting.

If you intend to take one of these courses in Alaska, you should sign up early because classes fill quickly and are seldom offered during the summer. The department currently offers the courses through volunteer instructors. The courses include a shooting proficiency test. Names of instructors and course dates are available at regional Fish and Game offices.
